

# Enhanced Care

## New auto insurance for BC

With the launch of Enhanced Care on May 1st, drivers now have access to improved care and recovery benefits.

Under Enhanced Care, if you're hurt in a crash, you can have the peace of mind that you'll get the care and recovery benefits you need.

**Care plan developed by your doctor**

**Increased care and recovery benefits, with no overall limit**

**Up to \$1,288 per week in wage loss payments**

Under the new insurance system, almost all British Columbians will be covered for 90% of their after-tax income in wage loss replacement (based on a maximum of \$100,000 of their pre-tax income).

**If you earn more than \$100,000** and don't have any other wage loss replacement coverage (e.g. through your employer), we recommend you contact your Autoplan broker as soon as possible to discuss options to top-up your wage loss coverage and avoid any potential gaps in your income.
